## **The Marriage Group Launches Groundbreaking Online Community for Catholic Marriage Formation**

**PORT HURON, MI:** After over 16 years providing on-demand online Catholic marriage preparation courses, The Marriage Group has developed an innovative way to serve engaged and married couples in the Catholic Church. Their newly developed online course platform now includes community features and ongoing formation; it's marriage preparation that doesn't leave couples at the altar.

Developed with both engaged and married couples in mind, the new course platform has been named Marriage Every Day™. It's the most flexible way for couples to build relationship skills, explore their faith, learn about sacramental marriage, and have fun doing it.

Couples can access the Marriage Every Day community for one year when they purchase The Marriage Group's marriage prep courses, Pre-Cana: *Living Our Faith In Love*® or Natural Family Planning: *NFP Life*®. The courses are delivered in the Marriage Every Day community which includes discussion boards, chat feeds, skill-building activities, live events, and ongoing access to new marriage masterclasses to strengthen their relationships. Couples who are already married can become members of the Marriage Every Day community for \$9 per month, making it the first on-demand, community-based enrichment experience for Catholic couples.

The community had its soft launch in May 2025. Membership is expected to hit 3,000 couples in September and surpass 5,000 by the end of 2025.

Claudio Mora, Director of Catholic Programs at The Marriage Group said, *"For years, Catholic ministry leaders have been asking us for more. This exciting formation experience is especially timely now that parishes are trying to approach marriage prep with a catechumenal model which requires more comprehensive preparation and support for the first five years of married life. Just like the disciples on the way to Emmaus, the Marriage Every Day community journeys with couples before, during, and after the wedding. Many of the parishes we work with need a really flexible option for their couples, and we're blessed to provide them with something that can truly work for everyone."*
